MISSILE DEFENSE SYSTEMS & SOFTWARE TEST ENGINEER

QTEC Aerospace is seeking Systems & Software Test Engineers to join our team of professionals in Huntsville, AL. Qualified applicants will become part of a team of professionals representing both industry and government. Successful candidates will be detail oriented, have a proven track record and a positive work ethic.

Job Summary
QTEC Aerospace is looking for multiple highly capable, motivated individuals. These positions will define strategies for ground and flight testing as well as perform test and evaluation activities for Missile Defense program-specific software.

Job Duties/Responsibilities
- Perform test planning, monitoring and test execution activities
- Collaborate with team members
- Devise the test objectives, organization test policies, test strategies and test plans
- Able to estimate the testing to be done and coordinate necessary resources
- Schedule the test for execution and subsequently monitor, measure, control and report on the test progress, the product quality status and the test results, adapting the test plan and compensating as needed to adjust to evolving conditions.

Minimum Education and Experience
- Bachelor of Science in an Engineering field
- 5 years of related experience

Required Knowledge, Skills and Abilities
- Must be able to work in a technical team environment characterized by frequently changing tasks, new priorities and quick responses
- Experience creating and documenting test plans/procedures, analyzing results and creating reports
- Experience with UNIX, Linux and Windows operating systems, C++, JAVA
- Ability to obtain and maintain a Secret clearance required

Security Clearance
Candidates must currently have, or be able to obtain, and maintain a minimum DoD SECRET level security clearance, Top Secret preferred.

Location
Huntsville, AL

Qualified candidates should send Application for Employment and resume to careers@qtecinc.com.
